DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The PTOL 1449 of 07/26/2006 has been received, reviewed and considered.

Response to Arguments

1. Applicant's arguments, see the remarks, filed 06/23/2008, with respect to claim 1 has been fully considered and are persuasive. The 103(a) rejection of 03/31/08 has been withdrawn.

Allowable Subject Matter

2. Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the art to perform the apparatus that is now claimed. The prior art of Ozawa teaches a method and apparatus for a vertical cylindrical crucible, high pressure solid-phase solidification. The crucible contains a liquid phase (3), a solid phase (2), and a conductive member (12) around the side of the vertical vessel (5), along with a high-frequency induction coil (13). The molten liquid (3) is moved away from the inner wall surface by use of an electromagnetic repulsive force between the molten liquid (3). Ozawa teaches that the liquid phase be kept away from the crucible and the solid phase in contact with the crucible. Ozawa also teaches a high-frequency induction coil (13)

Art Unit: 1792

around the side of a conductive member (12), which member is provided around the side of a vertical vessel (5). However, the prior art of Ozawa does not teach an apparatus, wherein an interstice between the solid phase is separated from the crucible nor does it teach an electromagnetic field generation means is distinct from the heating means, therefore, it fails to suggest an electromagnetic field generator which surrounds the crucible and is placed in an area opposite to the area wherein the interface between the liquid phase and the solid phase forms during the operation, as stated in the instant invention. There is no motivation in the art to change the prior art's teaching of to arrive at the instantly claimed process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
